Bierer Utility Support Assistance

The Bierer Meters Crew works diligently in establishing supportive & professional relationships with our Customers.

We ensure our Products performance, technical support, and most importantly Safety. Holding 17 Patents places Bierer first in the industry. Phasing Meters, Voltage Detectors (corded and wireless), TPG Testers, Service Testers, Custom Built Temporary Personal Grounds and their Components.

Bierer Meters is on the leading edge of technology within the Power Industry, manufacturing in SC USA for decades, but more importantly is how our team also assists your Line Crew's Safety.

Check out our full Product line at our Website or pick up the phone and speak directly with us, and someone will be happy to assist you.
